All participants should be at the state boat launch area no later than 10:50 a.m. Your registration number ***must*** be displayed on the starboard side of your boat (preferably 15" high minimum, clearly displayed for judges to see). ***The parade will begin precisely at 11:00 a.m.***, led by the pontoon boat "Boilermaker." Boats should form a single line behind the lead boat. The parade will proceed from the boat launch along the western shore, past Eden Beach, the dam, eventually turning toward the south peninsula. It will continue along the western edge of the south peninsula, go around Bullard Point (through the "cut"), then continue along the eastern edge of the southern peninsula to the southernmost point, and then head north along the eastern edge of the lake (Backshore Drive). The parade will terminate in front of the Boy Scout Camp beach. **Please do not break off of the parade route early.** The objective is to maximize the number of camps on the lake that can view **ALL** of the parade participants. **Prizes awarded for "best theme adaptation," "most unique," "most spirited," and "best representation of lake life."**
