### Selectboard Special Meeting 06/27/2023 5pm

Present at the meeting were Tim Bullard, Ricky Morin, Clayton Whittemore, Melissa Whitcomb, Branden Martin/Stone Environmental, Marc Chauvin/CCS Constructors

Tim opened the meeting at 5:01pm.

The purpose of this meeting was to do a walkthrough at the Paronto Road culvert and create a punch list of items needing to be addressed. Ricky thought the design was flawed and recommended for future design that the culvert be built with higher head walls to contain the gravel from the road. Branden discussed putting larger stones in the creek so that the material doesn't wash away. They also talked about the ditch being more defined in any future projects so that the water doesn't run out. Clayton had some concern about the soft roadside and part of the ditch that was filled with sand with few rocks visible that was near the top section of road used as a staging area during the project. Ricky thought that the sand was just spread over the top when they did cleanup and that rocks were underneath it. Branden stated that the contractors are responsible for returning the road back to it's previous condition.

Ultimately Branden, Marc, and the three board members reached the conclusion that CCS would return and shape up the top as well as fill the hole in on one side of the creek so the water would stay contained and flow properly.

Clayton motioned to adjourn at 5:21pm, Tim seconded, approved

Melissa Whitcomb, Town Clerk & Treasurer
