

TOWN OF EDEN & LAKE EDEN ASSOC. Would Like To Thank.....

&

**New England Interstate Water
Pollution Control Commission**

**For the 20K Grant to mitigate the infestation of
Eurasian Watermilfoil (EWM) weed in Lake Eden.**

This money helped us to accomplish the following this season:

- **Pre & post season treatment survey by Arrowwood Environmental Inc. to ID locations of EWM and to assess the effectiveness of our treatment measures.**
- **2 DASH (Diver Assisted Suction Harvesting) treatments.**
- **Purchase of 8 additional Benthic blankets to smother the invasive weed.**
- **Equipment to assist volunteer Hand Harvesters to remove the weed.**

To accomplish this and to meet grant requirements, we had the help of over 60 volunteers from the Lake Eden Association that helped by organizing all the efforts and contractors, arranging trainings, surveying the lake for invasive species, removing the weed, assisting the DASH team and so much more. We are so thankful to all of you who helped. AN INCREDIBLE COMMUNITY EFFORT!!!
